Abstract (en)

[origin: WO2009103690A1] The invention relates to a protection device including a helmet (1) and a removable protection shell (2) to be attached to the helmet (1), characterised in that the helmet (1) includes a front rim (6) provided with a slot (3) capable of receiving a tab (4) at the front rim of the shell (2). The shell (2) is used for modifying the outer appearance of the helmet (1) and further provides additional protection. The invention can be used for any type of helmet.
