Abstract (en)

[origin: WO2009101351A2] The invention relates to a method for assembling and installing a very large sized floating barge (1), that comprises making each side segment (10) and each connection segment (15) independently, depositing each side segment (10) on the water, bringing the connection segments (15) between said side segments (10), vertically moving the connection segments (15), attaching the connection segments (15) to the side segments (10), and bringing the barge (10) up to the exploitation site.
