Abstract (en)

[origin: WO2009056728A1] The invention relates to a security structure (3) comprising: at least one photochromic layer (4) having at least one photochromic area (8) provided with at least one photochromic element, and at least one thermochromic layer (5) having at least one thermochromic area (9) provided with a thermochromic element, and at least partially covering the photochromic area (8).
