Abstract (en)

[origin: EP2243888A2] The moisture protection system comprises a vapor barrier film (2) which is fastened on the elements of the building structures by a sealing closure. The sealing closure is formed by a hook and loop fastener which is made of the closure elements (4a,4b). The closure element is made of polypropylene, polyethylene, polyamide or polyethylene-terephthalate. Independent claims are also included for: (1) a vapor barrier film for a moisture protection system; and (2) a clawed hook tape for a moisture protection system.
