Abstract (en)
[origin: WO2009087337A1] In order to provide a cover for bed or resting place for a child, to exclude light to aid sleep, the present invention provides a structure (2, 3) which has at least two positions or which is movable. The structure supports a light excluding material (6, 7) so that, in one position, the structure (2,3) support the light excluding material (6, 7) so as to cover and substantially exclude light from the interior of the bed or sleeping place.
