Abstract (en)

[origin: WO2009092669A1] The invention relates to a device for dispensing and spraying a washing liquid onto the window of an automobile, wherein said device includes at least one liquid-conveying rail (41) including at least one hole (42a) for spraying a washing liquid onto said window. According to the invention, said conveyor rail (41) further includes at least one additional spraying means (42b) capable of spraying a washing liquid onto said window at a liquid pressure higher than a predetermined pressure threshold. The invention can be used in automobile wiper systems.
