Abstract (en)
[origin: WO2009106054A2] The present invention relates to a motor vehicle door lock, which is equipped with at least one lever (1), particularly a securing lever. In addition, a spring (2) that is associated with the lever (1) is provided. According to the invention, the spring (2) interacts with an associated contour (4) in order to form together a bistable position securing unit (2, 4).
