Abstract (en)

[origin: WO2009095530A1] The invention relates to a method for the sol-gel coating of a heat-treated object, wherein the object is heat-treated and the sol-gel coating is formed onto the object. According to the invention, in forming the sol-gel coating, heat energy that has been transferred and stored in the object in conjunction with the heat treatment is applied for curing the sol-gel coating.
