Abstract (en)  
A combination storage rack includes a plurality of upright supports each formed of a plurality of bamboo rods equiangularly arranged around the periphery and a plurality of spacer blocks fixedly mounted in the bamboo rods at different elevations to keep the bamboo rods apart from one another, a plurality of tapered locating members respectively fastened to the upright supports and supported on the spacer blocks, and a plurality of rack panels that have tapered through holes for the passing of the upright supports and for engagement with the tapered locating blocks.
