Abstract (en)
[origin: EP2249118A2] The device has an equipment carrier in form of a base platform (2) with variable and/or individually connectable attachment sets and/or adapters provided on a vehicle (1). The equipment carrier accommodates different equipment items (102) of the vehicle. The base platform is structurally connected with the vehicle by clamping bolts. The base platform is provided with flange surfaces and accessible and flat surfaces. A carriage (15) is mounted on the base platform using tensioning straps.
