Abstract (en)
[origin: WO2009115752A2] The present invention relates to an electric fan (1) comprising a shroud (7), a motor, a rotary assembly (2) comprising at least one blade (5) rotated by the motor in such a way as to create an airflow inside the shroud, an electronic control device (10) for controlling the motor positioned at least partially on the shroud (7), the shroud (7) being made of metal and the electronic control device (10) comprising a radiator (13) to dissipate the heat generated by at least one electronic component of the control device (10), this radiator (13) being fixed to the shroud (7).
