Abstract (en)

[origin: EP2251468A1] The cover fabric has a rear side thinned out in comparison to a front side according to weave technology by pulling a number of needles. The rear side includes a smaller number of weavings of stitches in a stitch course than the front side. The rear side includes 10-70 stitches and the front side includes 50-160 stitches, in particular 33 to 96 stitches per stitch course. The fabric exhibits a gross weight with stuffer from 100 to 250 gram per square meter, and a completed weight with stuffer from 120 to 350 gram per square meter. The fabric includes cotton, cellulosic and/or synthetic fibers.
