Abstract (en)  
Wall panel (1) for a facade element of a building comprising a plurality of successive wall panels wherein the wall panel is provided with a first (2) and a second (3) profiled edge at opposite sides of an intermediate part (10) of the wall panel wherein the first profiled edge is shaped into a male portion and the second profiled edges into a mating female portion, wherein the profiled edges are shaped to provide a good interlock between the profiled edges.
