Abstract (en)
[origin: WO2009109252A1] The invention relates to an instrument cluster (1) for vehicles (12) comprising a windshield (5) having at least one display and/or indicator instrument that can be read in direct view, and instrument electronics (9). In order to reduce the space required for installation into the vehicle (12), an imaging unit (2) for generating a projection image of a beam path (10) extending at least partially outside the instrument cluster (1) for a projection display device is integrated in the instrument cluster (1).
