Abstract (en)
[origin: EP2253441A1] Squaring and edging of a panel (2) made of wood or the like being substantially rectangular in shape are carried out by squaring and edging first and second sides (5, 6) of the panel (2) with reference to two parallel guides (28, 30, 32) opposed to each other, squaring and edging a third side (7) of the panel (2) with reference to one of the two guides (28, 30, 32), and squaring and edging a fourth side (8) of the panel (2) once the distance of the third side (7) from a given reference plane (R) has been measured and once the panel (2) has been moved according to the measured distance.
