Abstract (en)

[origin: EP2255698A1] The furniture (1) has an extendable footboard (5) for positioning feet of a user, and an adjustment mechanism (6) for adjusting the footboard between an extended position and a retracted position. The adjustment mechanism is formed such that the footboard is held in an upper side in the retracted position and in a lower side in the extended position. The footboard is arranged in the retracted position below a seat (3) of the furniture, where the footboard is projected against the seat in the extended position.
