Abstract (en)
A hoist system (2) is provided including support means (26,28) for supporting one or more objects in use and drive means (34) for driving movement of said support means (26,28) between two or more positions. The support means (26,28) includes one or more lengths of tape, ribbon, webbing and/or strapping. The object being supported is a graphical, promotional and/or advertisement display.
