Abstract (en)
[origin: WO2006113961A2] The invention relates to an item of furniture (1) comprising a furniture body (2), a furniture part (3) which is displaceably received in or on the furniture body, and an ejection device (4) having at least one ejection element (5) for displacing the movable furniture part (3) from a closed position (S) into a first open position (O), and at least one lockable drive device (6) for the at least one ejection element (5). The invention is characterized by means for displacing the at least one ejection element (5) beyond the first open position (O).
