Abstract (en)
[origin: WO2009106478A1] A transportable paint spraying device has, in a housing (2), an electric pressure-generating unit (27) for generating an airstream which is to be fed into an air hose (3) which can be coupled to the housing and to which a spray unit (6) can be connected. A cable drum (20) for a power cable (24) of the electric pressure-generating unit and a hose drum (11) for the air hose are arranged on the outside of the housing, wherein the cable drum and the hose drum are arranged parallel to one another and are separated from one another by means of a radial separating wall (12).
