Abstract (en)
Summary The invention relates to a domestic appliance (1), having a control panel (2) which has at least one written information (3) for the operation of the domestic appliance (1). To propose an economic concept for equipping the control panel with written information in a second language, the invention is characterized in that the control panel (2) comprises a carrier structure (2') and an information carrier (2''), wherein the information carrier (2'') is fixed on the carrier structure (2') by means of at least one magnet (4).
