Abstract (en)
[origin: EP2264260A2] The post (1) has a support rod (3) provided with a fixing unit i.e. angle brackets (13, 14, 15) for fixing railing elements. A foot part (2) is provided with fastening units such as bolt (4), bore hole (7) and a bar (8) for fastening the post at a form board, and the support rod is inclined at the foot part. The bolt is arranged on a lower side of the foot part for fixing the post at the board in an opening, recess or a hole. The bolt comprises a conical tapered front part and a bore hole for receiving a security element (10) that is connected with the post by a chain (11).
