Abstract (en)
[origin: EP2264358A1] The light comprises a locking device and two lights (2) with a carrier rail having U-shaped rail section which is open on one side. A base profile is provided opposite to an open side of the rail cross section. Two web profiles project from the base profile, where a device carrier is inserted in the web profiles in the mounted condition for closing the open side of the rail cross-section.
