Abstract (en)  
[origin: WO2009120069A1] A wall tie having a supporting function for an insulation material to be installed in a wall cavity, characterised in that the wall tie comprises a plug to be inserted through the insulation material and into the inner cavity wall, which plug comprises a pin-shaped body provided with a longitudinal, central bore, as well as a pin to be anchored in an outer cavity wall, which pin can be inserted into the bore in the plug body, which body is provided with outwardly extending, deformable, longitudinal ribs at least along part of its length, and which plug is capable of supporting the insulation material.
