Abstract (en)
The invention relates to a concrete manufacturing plant and a method for manufacturing concrete. The concrete manufacturing plant according to the present invention is equipped with devices designed for mixing and with devices designed for dosing and weighing, and features the following detachable equipment, arranged as a sequence: hoist winch container (5), silo container (4), mixer container (3), and the cement silo (2) located at the side of the plant. The method for manufacturing concrete according to the invention is characterized in that at the first stage cement, sand, water and plasticizers are mixed together separately, and then aggregates are added.
