Abstract (en)

[origin: EP2266858A2] The toilet cell has its floor formed from a floor liner (7) laid directly on the floor plate (3). It has a multi-part bath profile (5) fixed to and running along the floor plate to seal the floor liner to the side wall (1). The profile extends inwards, and has an outer sector (9) between the underside of the side wall and the upper side of the floor plate; and an inner sector (10) in hollow neck form against the lower edge of the side wall.
