Abstract (en)

A pack or bag (10) made of a multilayer film with a plastic film or a lacquer layer as outermost layer on an exterior surface (14) of the pack (10), and a removable strip (12) of a flexible film material optionally containing printed information on at least one side of the strip (12) is extending over the exterior surface (14) of the pack (10). The strip (12), e.g. a promotion strip, is coated on one side with a cold seal or peelable hot melt adhesive (16) and is removably affixed along its whole length to the exterior surface (14) of the pack (10). The promotion strip is completely stuck down the pack or bag which prevents breakage and allows for reverse or hidden promotional activity and messages while still being removable from the bag or pack.
