Abstract (en)
The foot connection system according to the invention comprises a sole plate (1) of a household appliance, an interconnection component (6) installed to at least one installation channel (2) on the sole plate, and the foot (10) installed on that component (6). On the mentioned component (6), there is a slide bedded in the installation channel (2); and a connection guide (7) on at least one lateral edge of the slide. On the channel (2), there is a clearance on one side of the channel (2) where the slide (14) enters longitudinally on single direction, and a channel guide (3) along at least one side of the clearance (12). There, the mentioned guides (3, 7) are interlacing, and the component (6) is longitudinally bedded in the channel (2).
