Abstract (en)
[origin: EP2267238A2] The structure (1) has a grating floor (2) connected to a lateral part (6), where the grating floor has a set of carrying bars (3) and a set of filling bars (4). The carrying bars extend parallel to the lateral part, and the grating floor has a reinforcement profile (5) extending perpendicular to the lateral part, where the carrying bars are connected with the reinforcement profile in a form-fit or force-fit manner. The reinforcement profile comprises a Z-profile, where the carrying bars are arranged on a horizontal section of the Z-profile. An independent claim is also included for an arrangement for a carrying structure.
