Abstract (en)

[origin: WO2009129973A1] The invention relates to a cup (10), in particular a yogurt cup, comprising: - a container element (11); - a separate bottom section (12, 12') designed as a stand element (12) or lining element (12'); and - a shrink film (13) extending around at least a portion of the container element (11) and at least around a portion of the bottom section (12, 12') and connecting the container element (11) to the bottom section (12, 12'). Also proposed is a cup, in which a portion of the sleeve forms the cup base without the separate bottom portion.
