Abstract (en)
[origin: EP2270292A1] The floor panel (103) has a base surface (12) lying opposite to a tread (11), and two side surfaces formed parallel to each other and running in a longitudinal direction. The floor panel is provided with a set of frieze bands (A), a set of mushroom-type bands (B) and a check band to which another set of frieze bands, another set of mushroom-type bands and a velour band are compatible. A floor element such as additional floor panel (103'), a subsurface or a fastening element designed as a profiled insert, is connected to the floor panel to form a detachable hook-and-loop tape connection.
