Abstract (en)

[origin: EP2272640A1] The cutting product holder is provided with a cutting product carriage (3) and has a swiveling arm (5), which carries a holding plate (9) at the free ends, and has a handle (11) for lifting and lowering of the swiveling arm. The handle is temporarily fixed in its relative position by high oscillations of the swiveling arm for releasing the swiveling motion and is unlatched from the fixing position by lowering the swiveling arm with the accumulation of holding plate at the cutting product (10) for locking the swiveling arm.
