Abstract (en)

[origin: EP2273020A1] The two sectional air layer rotor (1) comprises an inner shell (100) and an outer shell (200), where the air layer rotor comprises an inner shell section (10) which is provided as one unit for inserting in the inner shell. An outer shell section (20) is provided as another unit for inserting in the outer shell. Independent claims are also included for: (1) an inner shell section for two sectional air layer rotor; and (2) an outer shell section for two sectional air layer rotor.
