Abstract (en)
[origin: WO2009121712A2] The invention relates to a fume vent device, in particular a fume vent hood, comprising at least one vapor shield plate (5) made of preferably transparent material, and a support part (9) for attaching the vapor shield plate (5) thereon using at least one fastening element (17). According to the invention, the fastening element (17) can be removed or fastened without the use of a tool for installation/removal of the vapor shield plate (5).
