Abstract (en)  
[origin: EP2278070A2] The system (10) has two intersecting traffic paths (12) comprising a road (13), a bicycle lane (14) and a pedestrian path (15) running parallel to each other and separated for different road user groups. A roundabout traffic lane and another roundabout traffic lane (18) are provided in a region of an intersection of the traffic paths. One of the traffic lanes is connected with the road, and another traffic lane is connected with the bicycle lane and the pedestrian path. The traffic lanes are arranged on a level and another level (N2), which are different from each other.
