Abstract (en)

[origin: US2010315364A1] This portable terminal includes a control portion for transmitting a position of a touch panel portion directly or indirectly operated by one of the hands of the user to the other hand of the user by vibrating a portion, corresponding to the operated position of the touch panel portion, of a vibrating portion grasped by the other hand of the user when the user has directly or indirectly operated the touch panel portion with one of his/her hands.
