Abstract (en)

[origin: EP2280115A1] A clothes washing device 1 with a drying procedure and a method of controlling the same are provided. The clothes washing device 1 includes a water tub 2, a drum 3 rotatably disposed in the water tub 2 to receive clothes of a user, a heating member 4 for heating air to perform drying operation on the clothes, and a blower for driving air circulation. The clothes washing device 1 is provided with a washing procedure for performing washing operation on the clothes placed in the drum 3 by the user, and further provided with a cleaning procedure for performing cleaning operation by intermittently driving the blower 6. Through the cleaning procedure, the lint generated during the washing procedure and drying procedure can be washed away, thus ensuring a washing effect and drying effect of the device.
