Abstract (en)

[origin: EP2280177A2] The charging device (1) has a shaft (3) carrying a compressor wheel (2), and a fixing device (4) for fixing the compressor wheel on the shaft. A sealing bush (5), a partition (6) of the bush and a spacer disk (7) are fixed on the shaft and fixed together with the compressor wheel by the fixing device. Expansion coefficient of the bush, partition and the disk is smaller than expansion coefficient of the compressor wheel at a predetermined temperature range. The shaft is made of steel or steel alloy.
