Abstract (en)  
The invention concerns a hose set and a kit of parts with the hose set. The hose set comprises a hose (2) and at least one first connector (4), suitable to be coupled to a washing machine or a dishwasher with an electrically manipulatable valve (9), wherein the first connector comprises a partially pipe-like shaped single-piece element (5) with an attachment portion (6), with the pipe-like shaped single-piece element partially surrounded by the hose, wherein the attachment portion is configured to be directly brought into contact with the valve, to allow a fluid communication therebetween.
