Abstract (en)
[origin: EP2282148A2] A refrigerator including an extractable container (20), and a conveying unit (60) formed in an inner space of a vertical wall of the extractable container (20). The conveying unit (60) includes a guide part to guide the movement of a partition member (50) that divides a storage space of the extractable container (20), and a fixing part to restrict the movement of the partition member (50).
