Abstract (en)  
The disc has an arched main element (1) whose arch extends in one direction and snaps in opposite direction under influence of temperature change. The main element is provided with heating element formed by electrical conductor (2) provided directly on main element. The electrical conductor is embedded in an insulting layer and in the form of conductor strip.

Abstract (de)  
Eine Bimetall-Schnappscheibe mit einem gewölbten Hauptelement (1), dessen Wölbung sich unter Temperatureinfluss in die entgegen gesetzte Richtung ausbildet, ist dadurch gekennzeichnet, dass auf dem Hauptelement (1) ein als elektrischer Leiter (2) ausgebildetes erstes Heizelement angeordnet ist.
