Abstract (en)

[origin: WO2009144297A1] Control for a high-voltage/medium-voltage device comprising at least one actuator (6, 12) for opening/closing a switch of said device, a mechanism that can move a movable part of said switch and a force transmission element (8, 14) for transmitting a force between the actuator (6, 12) and said mechanism, said transmission element (8, 14) being formed by a flexible belt.
