Abstract (en)
[origin: WO2009143899A1] The present invention relates to a method of constructing a semi-submersible unit (26) comprising a side wall, wherein the method comprises the steps of: placing a hull (10) in a body of water, the hull (10) comprising an opening (20) for receiving an end piece (28), the end piece (28) constituting at least a portion of the side wall; - lowering the hull (10) into the body of water, and - connecting a deck structure (24) to the hull (10) to form a semi-submersible unit (10). The present invention also relates to a kit for constructing a semi-submersible unit (26) comprising a side wall, wherein the kit comprises hull (10) comprising an opening (20) and a deck structure (24). Moreover, the present invention relates to a semi-submersible unit (26) constructed according to the method and/or from a kit according to the present invention.
