Abstract (en)
[origin: WO2009136835A1] The present invention relates to a device for attracting attention. Distinguishing features of the device according to the present invention are that it comprises a mounting means (1) and a disc (7) disposed for rotation on the mounting means (1), that reflectors/luminous means (10) are attached to at least one side of the disc (7), and that the centre of gravity of the disc (7) is displaced from the centre of the disc (7).
