Abstract (en)

[origin: EP2286999A2] The device has a file i.e. desk plate (8), for presenting a printed copy (20). A monitor (1) i.e. color-accurate soft-proof monitor, is provided for simulating a predetermined printed result. The monitor is movably arranged relative to the file and operating elements i.e. touch-screen monitor, where the elements are movably arranged. The elements move during a misalignment of the monitor and are integrated into a guiding or misalignment device i.e. holder (5), of the monitor. A hand grip (7) is provided for the misalignment of the monitor and the elements are integrated into the hand grip.
