Abstract (en)
[origin: EP2288181A2] When any one of a plurality of amplifiers has been selected in response to amplifier selecting operation, an amplifier Detail View (37) of the selected amplifier is displayed, wherein an element representing a parameter from a parameter set corresponding to the selected amplifier is displayed in an ON style if the ON/OFF state of the parameter is ON, or in an OFF style if the ON/OFF state of the parameter is OFF. When any one of a plurality of groups of the plurality of amplifiers has been selected in response to a group selecting operation, a group Detail View of the selected group is displayed, wherein an element representing a parameter from a parameter set corresponding to the selected group of amplifiers is displayed in an ON style if the ON/OFF states of the parameter in all the amplifiers of the selected group are ON, in the OFF style if the ON/OFF states of the parameter in all the amplifiers of the selected group are OFF, or in an ON-OFF mixed style if the ON/OFF states of the parameter in the amplifiers of the selected group are partly ON and partly OFF.
