Abstract (en)
When any one of a plurality of amplifiers has been selected in response to amplifier selecting operation, an amplifier Detail View (37) of the selected amplifier is displayed, where corresponding parameters are displayed via elements of the amplifier Detail View. When any one of a plurality of groups has been selected in response to group selecting operation, a group Detail View of the selected group is displayed, where maximum and minimum values detected from among values of a parameter of individual amplifiers of the selected group are displayed via a band-shaped element (40) of a corresponding fader element.
