Abstract (en)  
[origin: EP2290378A2] According to an exemplary embodiment of the invention, an align fixture for aligning an electronic component is provided, wherein the align fixture comprises an elastic unit plate having an elastic unit receiving section, a receptacle adapted to receive the electronic component and having a first abutting section and a second abutting section, and an elastic unit, the first abutting section being flexibly mounted via the elastic unit, wherein the elastic unit is adapted to exert a force to align the electronic component to the second abutting section, and wherein the elastic unit is a separate elastic member adapted to be mounted at the elastic unit receiving section.
