Abstract (en)

The security print paper comprises a security mark (1) printed on a background surface of the paper by a thermochromic ink. The security mark consists of a design including regions (2, 3, 4) with a separate screening, where a value of screening is 50%. One of the areas of the design has an oval shape. The thermochromic ink includes blue 27[deg] with offset reference of 08114, pink 27[deg] with offset reference of 25094, blue 10[deg] with offset reference of 0326, two-colored blue/pink fluoborate 27[deg] with reference of 130503, two-colored green/yellow 27[deg] with reference of 120503. The security print paper comprises a security mark (1) printed on a background surface of the paper by a thermochromic ink. The security mark consists of a design including regions (2, 3, 4) with a separate screening, where a value of screening is 50%. One of the areas of the design has an oval shape. The thermochromic ink includes blue 27[deg] with offset reference of 08114, pink 27[deg] with offset reference of 25094, blue 10[deg] with offset reference of 0326, two-colored blue/pink fluoborate 27[deg] with reference of 130503, two-colored green/yellow 27[deg] with reference of 120503, and two-colored purple/blue fluoborate 27[deg] with reference of 200906. A grammage of paper is >= 75 gr/m<sup>2</sup>. An independent claim is included for a process for fabricating a security print paper.

Abstract (fr)

L'invention a pour objet un papier à imprimer sécurisé et son procédé d'obtention. Le papier est remarquable en ce qu'il comporte au moins un signe de sécurité (1) imprimé à sa surface, ledit signe étant imprimé en arrière-plan sur la surface du papier avec au moins une encre thermochromique et ledit signe étant constitué par un dessin comportant au moins trois zones (2,3,4) avec un tramage distinct pour chacune des zones, la valeur de trame variant entre 18 et 50% bornes incluses et ledit dessin comporte au moins une zone(4) à valeur de trame de 45 à 50%. L'invention trouvera une application préférentielle pour réaliser du papier à en-tête de lettre, du papier de billetterie, des cartes de membres et permis de pêche, des feuilles de résultats d'analyses médicales, des formulaires administratifs officiels notamment.
