Abstract (en)  
[origin: EP2292888A1] The chassis (1) has a casing (2) including a wood profile (3), which carries a cover (10) made of metallic section. The cover is surrounded by an insulating material (9) glued on an outer face of the wood profile. An opening frame (4) includes another wood profile supporting a glass roof (5). A face of the roof is fixed to a glazing bead (7) by a bonding unit (23). The face of the roof includes a strike portion (13) arranged on the casing. A face of the wood profile of the frame includes profiles forming other strike portions (17, 19) placed on the casing. The cover for covering the casing is made of material selected from aluminum, anodized aluminum, enameled aluminum and stainless steel. The insulating material is polyurethane foam.
