Abstract (en)

[origin: EP2295331A1] The folding box is formed out of a one-piece blank (1), and includes an outer packaging body (3) and a hollow inner chamber (5). The outer packaging body has a front wall (7), a rear wall (9), at least two side walls (11), a top component (13), and a bottom component (15). The inner chamber is provided in the interior of outer packaging body of rectangular cross section. The inner chamber is formed by folding the front wall component, the rear wall component, and the side wall components toward the outer side of blank. The width of inner chamber is less than the width of outer packaging body.
